The opinion, after calling the atten-

thorized in the school badget for the biennial period beginning January 1, 1916, and ending December 31, 1917, as contained in Act 132, Session Laws, 1915, and set forth on pages 150 and 161 of said Session Laws, your attention is called to Laws, your attention in the center of the large floor.

The gathering was distinguished by the presence of most of the officials of army and government circles; proming the content of the officials of army and government circles; proming the content of the officials of army and government circles; proming the content of the officials of army and government circles; proming the content of the officials of army and government circles; proming the content of the officials of army and government circles; proming the content of the officials of the content of the officials of the official of the off thorized in the school badget for the tion is called to the fact that the auditor reports that the sum of \$84.2.0 Eve ball, two bands maintained a live will not be available in cash at the love of the present fiscal year of the board, ending June 30, 1916; on the tet, Miss Ruth Florence, Miss Louise contrary, the collection and payment to Lorain and Miss Portia Newport sang the city treasury of the revenue for opular songs at intervals, accompanied by the Second Infantry orchestra. In only carefourth of this amount, name taco of the Twenty fifth Infantry band the city treasury of the revenue for ly, \$21,050, will be available on or be fore June 30, 1916, in the hands of the treasurer as eash in the specia fond for the purpose of new build rgs. leaving a balance of \$63,150,00, which confessedly not be available in the special fund for the purpose of buildings on or before June 30 1916, the close of your fiscal year.

date of the same

Money Not Available The contention has been advanced that because Chapter 25, Sections 200 and 301, appropriates the entire school maget for a biennial period that these rections make the amounts contained in the budget available for immediate expenditure. Section 300 specifically states, however, that 'all revenues de rived from time to time from the cal lection of the school tax are hereby appropriated, etc., clearly contemplating the fact that the money appropri ated under the budget shall fived and shall become available from time to time as the school tax shall be collected. In o'hor words, the leg islature has erented a which money shall be applied when it becomes available and has not altered it promises to be a brilliant social at the fact that the money is not avail able until collected and turned over for the purpose set forth in the budget Hence, it is seen that such a conten tion does not relieve the board from the direct prohibition of Section 2214. if it taider or participates in incurring authorizing or contracting, during any fiscal year, liabilities or obligations, whether rayable during such fiscal year or not for any or all purposes, in excess of the amount of money available for such purposes for such county or eity med country during such year.

Must Adhere to Law "Even if it should be admitted, for the sake of argument, that the legis lature has in fact appropriated the en-tire amount of the budget, without giving any effect to the words 'all revenues derived from time to time from the collection of the school tax,' etc .. the board would still be governed by Section 2214 as to its spending or authorizing the expenditure of money in excess of the amount of money avail

"That is, if the treasurer will not have in hand on or before the thirtleth day of June, 1916, the sum of \$84 209 for the purpose of new school bell/lings, without collected from the school tax or available out of the general fund, it would be a criminal violation of the law for the board de therately to authorize the expenditure

Fond provided for in Section 1728. Laws of Juwaii, 1915, offere a solution for the difficulty, in that the new luiblings account can be put upon each basis by a transfer of moneys from the earh basis fund to such nev buildings account. The fallacy of such a suggestion becomes obvious by a perusal of the last portion of the sec

tion, which says: The treasurer " \* shall cause all moneys so transferred from the cash basis fund to be returned there to before the end of the half enlendar year in which such moneys

200

ere so transferred. "Such a transfer from the cash basis fund becomes merely a loan for a commissioner Bodge was also compelled to be absent. The regular meeting to be absent. The regular meeting will be used this afternoon at half period up to the close of the half calmade and which must be repaid to the nast one o'clock. eash basis fund on or before June 30. 1946. Your very difficulty is that there with regard to the present city budget, together with the statement of the part \$68,150 to repay the cash basis finance committee and the auditor, show that the sam of \$68,150 will not

Officers of Schofield Barracks and Their Ladies Kept Away By Storm

Jupiter Pluvius and his konn cohorts lampened but by no means dimented the splender of the big charity ball at the armory last night, given for the benefit of the Army R.lief Society. The god of weeping skies may have reduced the attendance somewhat; he did hold up trains from Schofield and keep back the Twenty-fifth Infantry band; likewise all the officers and their ladies from the big Leilehua cantonment, who were prevented from coming to the city by motor by bad washouts in the highway. But the affair made up in brilliance what it lacked in numbers.

These were tastefully decorated with The opinion, after calling the attention of the board to the penuities imposed in section 2214 of the Revised Laws, says:

With regard to the proposed authorization and appropriation of the folds sam of \$84,200 estimated and authorized in the school beddet for the center of the large floor.

the Hawnian band was installed on the roof of the pavilion, while the Second inlantry band was stationed above the mauka entrance of the building. Distinguished Guests Present

## WORK ON DRYDOCK **MAKING PROGRESS**

Pearl Harbor Naval Construction Summarized In Report To Secretary Daniels

By BENEST G. WALKER (Mail Special to The Advertiser) WASHINGTON, January 8 .- The onstruction activities at Pearl Harbon on the part or the navy bureau of yards and docks are summarized in the report of Admiral H. R. Stanford to Secretary Daniels. After stating that the only drydeck authorized or under construction, but not completed, is the drydock at Pearl Harbor, the report

"Work on this construction was co Work on this construction was com-pletely suspended from February 17, 1913, when the dock, in so far as it was then completed, failed. Work was not resumed until toward the end of November, 1914, when a radically dif ferent system of construction, as pro-vided for in supplemental agreement executed November 19, 1914, was conmenced. The execution of this sgreement added \$1,261,350 to the contract price for the dock, making the total obligation of \$4,442,115.43. This time allowed for the construction of the dock was extended by the terms of the agreement to June 30, 1918.

"Due to suspension of work on the drydock during the first half of the fiscal year a number of projects more or less dependent upon the progress of construction on the drydock were de-

It is hoped to secure the assistance of some of the leaders in the accial world, and to have all of the others take prominent part in the affair. Tickets will be sold, and the funds raised thereby will be devoted to the and men of the goard.

The development of the social idea came as a result of talks made to the guard officers by Colonel Lincoln, Feat Infantry, N. G. H. and Major Lenham of the Second Infantry. Colonel Lincoln is the assistance returning from a four moutha' stay at layed. Resumption of work on the dry-dock, however, allowed some of these projects to go forward in accordance tax with the approved plan.

'A contract was entered into during the year for five additional shop while there,' he said, 'and for me to attempt to discuss China's politics would be folly. But it is cortain that what the land requires is development; it won't get i' without a solid, safe, reliable government, and many of the completion of the storage of the Second Infantry. Colonel Lincoln is the development of the social idea and the local force being engaged in the Second Infantry. Colonel Lincoln, is wife and son, Professor Adams is construction on the dry-dock, however, allowed some of these projects to go forward in accordance tax and with the approved plan.

# DISABLED BARK

Naval Tug Navajo and Coast **Guard Cutter Thetis Go** To Rescue

IMPERILED VESSEL IS UNDER CONTROL

Should Arrive From Kauai With Its Convoying Craft Some Time Today

(From Wednesday Advertiser)

The bark British Yeoman is being owed to Honolulu from Kausi and she and her convoying vessels should arrive here today. This word was re seived last night in radiograms from vessels that went to the rescue of the imperiled bark,

Both anchors gone, rudder disabled and reported leaking, the situation of the British Yooman was extremely precarious when the lighthouse tender Columbine asked for help early yesterday morning. The United States Navy tog Navajo, Captain Metters, and the Coast Guard cutter Thetis, Captain Brown, put to sea during the morning, and the Liter-Island steamer Waileles, which was a season of the Coast Guard cutter Thetis, Captain Brown, put to sea during the morning, and the Liter-Island steamer Waileles, which was a season of the Captain Steamer Waileles, which was a season of the Captain Steamer Waileles. Wailele, which was despatched Mon-day to Port Allen to assit the British Yeoman, near destruction at Port Al-len from the kona, was caught at Nawillwill by a radiogram from the C.1-umbine, which was standing by. The vessels succeeded in taking the bark in

Captain Warrings of the Columbiae advised A. E. Arledge, lighthouse in spector, that he was proceeding to Honolulu, would arrive this morning and that all was well. Mr. Arledge took this to mean that the Columbine had turned over the work to the other vessels and would return ahead of

Making For Honolulu

Other early advices in the eve ing were fragmentary, because of the bad static conditions. The radio s'a ion at the navy yard was able to get little from the Columbine, but Fort De R. s.y caught fragments of a message that indicated one of the steamers, probably the Navajo, had the British Y oman in tow, and that they were making for Honolulu. The message of Captain Warriner appeared conclusive,

At four-thirty o'clock yesterday morning Captain Warriner reported to Mr. Arledge and to the naval station that all his lines were gone and that the Yeoman's rudder was disabled. He asked for aid immediately. On being advised of this Admiral C. J. Boush, the Yeoman's rudder was disabled. He asked for aid immediately. On being advised of this Admiral C. J. Boush, owns her railroads, but they all are built by foreign capital. Unless the returned f.om Kauai yesterday with the Port Allen, where she expected to

The officers acted quickly and without a request for assistance being

It was expected that the Navajo, whose top speed is fourteen miles an hour, would arrive at the scene before nightfall yesterday, and that the Thetis would arrive during last evening. With the British Yeeman in tow, the Columbine had arrived afteen miles

south of Nawiliwili when she lost her

last line vesterday morning. This position was given the Navajo and Thet s. Difficulty had been met by the Colambine in getting the bark out of Port Allen and to sea. She fouled her propeller Monday afternoon with one which will have the same duties as of the towing lines, and sent a radio-the board of directors in a city asso-ciation. It is planned to have every this, the Navajo was about to depart thing in shape to begin the work by when the Columbiae reported that shape had got clear and would not need belo-She took the bark well out to sea and reported that she was on the way to Honolulu, but that progress was slow and that it could not be stated when

she would arrive. The next word came yesterday morning. Without the assistance of the Columbine, it is probable that the Bri ish Yeoman would have followed the schooner Prosper, which was diven asbore by the kons Sanday and which now lies, a total wreck, on the shoal at the mouth of the Hanapepe river.

One Anchor Is Cone

More than a dozen of the sma'ler she had lost both anchors when the intended growers of this island have Columbine took her in tow, but it had formed an association for the better been stated that one was gone. Wen narketing and packing of their fruits, her rudder was disabled is problemati-

It would have been the first of their work and membership as the deavor of Captain Warriner to get the association becomes known. vessel well from land so as to have some leeway. With the kona raging president and George Wond of Aisa she was on a lee shore. Her postion secretary. There are to be no other fifteen miles south of Nawiliwili was improved, as she might drive up the channel before the kona, thus escaping

The Navajo took a ten-inch Munita cable and a steel line, and the Wailele was supplied with salvage gear, so they should be able to bring the Yeamen in without further trouble. The Cleb miline was not especially equipped for the towing work.
